COVER 112

Product Features

COVER 112 is a very high purity Sodium free, cleaning and drossing flux, designed specifically for applications where the presence of sodium would be detrimental to the processing of the aluminum.

WEDRON - COVER 112

- Can be applied to all alloys including aluminum extrusion alloys.
- Is suitable for use in all furnaces from small crucibles to large bulk melting and holding furnaces.
- When used as a cover it will help protect the melt from oxidation.
- Promotes the efficient removal of oxides from the metal prior to casting, thus improving cleanliness and fluidity.
- Once rabbled into the melt for 2-3 minutes, it produces a dry easily removable dross.

Directions for use:

1. The amount of flux to be applied will vary depending on the degree of contamination in the melt but is generally 1/2% to 1% or 1-2 lbs flux to 1 thousand pounds of the metal charge.
2. Optimum results are obtained if the flux is applied in two stages, add one half of the flux with the initial charge and the remainder when the metal is molten.
3. When the charge is completely molten and the flux melted and well distributed over the surface, the flux layer should be rabbled into the molten metal to collect the oxides floating in the metal and agglomerate these at the surface.
4. When the flux/oxide mixture has dried to powdery dross, remove it with perforated skimmers and collect it in reclaimers for optimum metal recovery

Packaging:

Available in 100# Boxes, 500# boxes, or 500# Fiber Drums

Storage Guidelines:

Avoid extremes of temperature during storage.

Safe Handling:

Refer to the Material Safety Data Sheet for additional information.

Technical Service

HA International is "The Best Total Solution" for your foundry by providing innovative products, in-depth technical assistance, and a diverse product line specially formulated for any foundry application. Both our in-house and field experts are available to assist you with your most challenging foundry applications. Please contact your HA International, LLC representative so that we may assist you in putting together a binder system and foundry team that will help you achieve your goals. Contact your sales representative for additional technical information.

SELLER MAKES NO WARRANTY, EXPRESS OR IMPLIED CONCERNING THE PRODUCT OR THE MERCHANTABILITY OR FITNESS THEREOF FOR ANY PURPOSE OR CONCERNING THE ACCURACY OF ANY INFORMATION BY SELLER, except that the product shall conform to contracted specifications, and that the product does not infringe any valid United States patent. The information provided herein was believed by Seller to be accurate at the time of preparation or prepared from sources believed to be reliable but it is the responsibility of the user to investigate and understand other pertinent sources of information to comply with all laws and procedures applicable to the safe handling and use of product and to determine the suitability of the product for its intended use. Buyers exclusive remedy shall be for damages and no claim of any kind, whether to product delivered or for non-delivery of product and whether based on contract, breach of warranty, negligence or otherwise shall be greater in amount than the purchase price of the quantity of product in respect of which damages are claimed. In no event shall Seller be liable for incidental or consequential damages, whether Buyer's claim is based on contract, breach of warranty, negligence or otherwise.
