

# 04-4723 Technikoat

## Product Features

04-4723 Technikoat is designed with a unique system that combines graphite with a ceramic refractory blend. This combination of refractory types has proven particularly effective in the reduction of veining, burn-in, and burn-on while demonstrating excellent peel characteristics and improved overall casting finishes. 04-4723 Technikoat is effective for all iron types with withstanding metal sections up to four inches.

## Performance Characteristics

- Robust refractory system
- Good oven dry characteristics, does not blister or crack
- Shorter dry times than conventional water based coatings

## Physical Properties (as produced)

Physical Form	Premix
Color	Gray
Refractory	Ceramic/Graphite

## Product Application

Brush	40 – 50 Be
Spray	40 – 50 Be
Dip	28 – 36 Be
Flow Coat	28 – 36 Be

Recommended drying method is forced air oven or air drying allowing adequate time.

**EcoMission Approved**

## Storage Guidelines

Avoid extremes of temperature and humidity during storage. Do not freeze. Recommended use life is 90 days.

## Safe Handling

Refer to the Material Safety Data Sheet for additional information.

## Technical Service

Let HA International be “The Best Total Solution” for your foundry by providing innovative products, in-depth technical assistance, and a diverse product line specially formulated for any foundry application. Both our in-house and field experts are available to assist you with your most challenging foundry applications. Contact your sales representative for additional technical information.
